

Carrier Instructions- Macy's EDI 214 Testing

1. Carrier must establish contact with Macy's Transportation Office.
2. Carrier must establish contact with EC Technology Office.
3. Carrier must transmit using the 3060 Vics Version.
4. Carrier must contact the EC Technology Office and notify them when any test documents are sent.
5. Test must consist of multiple divisions with the same "Ship to" destinations for the same trailer. (example: Trailer 1234 has freight for Bloomingdale's and Macy's going to the Secaucus Facility)
6. Once the 214 test has been approved. Carrier will be placed in **audit** stage and must notify the EC Technology Office of any shipments going to any of our Macy's facilities.

Please note: The 214 will create the carriers delivery appointment, therefore it must be sent prior to **receiving the delivery appointment from the facilities.**

Please transmit the 214 to communication id **08-6113310005.**
