Subject: 2008 Macy's Vendor Standards Manual Released

February 19, 2008

Dear Vendor,

Macy's 2008 VENDOR STANDARDS MANUAL

Macy's 2008 Vendor Standards Manual is now available on our website, www.macysnet.com. The Vendor Standards Manual is your guide to doing business with Macy's and will provide you with information (including Macy's vendor-related policies and performance standards) that are essential to achieving Macy's goal of continually improving the processes that bring your merchandise to our customers.

In 2007, Federated Department Stores, Inc. changed its name to Macy's, Inc. We have revised our documentation to reflect our national brand and, for purposes of the Vendor Standards Manual, are using the term "Macy's" to refer to Macy's, Inc. and all of its affiliated entities (including Bloomingdale's), unless otherwise specified. Also, note that references to the "Vendor Manual" are intended to include this 2008 Vendor Standards Manual and all of the Macy's materials referenced here and posted on www.macysnet.com. (Note that Macy's has announced a consolidation of certain Macy's store groups. Further information will be provided as needed to update the Vendor Standards.)

While updating the Vendor Manual to reflect our new name and incorporate recent substantive additions and changes to Macy's procedures, we have taken the opportunity to simplify and clarify the Vendor Manual's language and presentation. As in years past, new material and substantive changes are shaded throughout the document for your information, but we strongly urge all vendors to carefully review the **entire** Vendor Manual because Macy's regards each and every vendor's compliance with all of the Vendor Manual provisions applicable to its merchandise as critical to our mutual success.
