

February 2010

Dear Vendor

Macy's 2010 VENDOR STANDARDS

Macy's 2010 Vendor Standards is now available on our website, www.macysnet.com. The Vendor Standards is your guide to doing business with Macy's and will provide you with information (including Macy's vendor-related policies and performance standards) that are essential to achieving Macy's goal of continually improving the processes that bring your merchandise to our customers.

As in years past, new material and substantive changes are shaded throughout the document for your information, but we strongly urge all vendors to carefully review the **entire** Vendor Standards because Macy's regards each and every vendor's compliance with all of the Vendor Standards provisions applicable to its merchandise as critical to our mutual success.

Please forward this email to the appropriate members of your team and finally, please accept our thanks for your continuing support in 2010.
