

Dear Vendor,

As we roll out our My Macy's strategy across America, we have committed to helping our vendor partners align their field organizations with the new Macy's merchandising and planning teams in each local market. We want to work closely with you to pursue new ideas, drive sales and maximize margins. Toward that end, attached is a list of Macy's vendor contacts in each My Macy's district. They will serve as your point persons for contacting district merchants and planners in each family of business, requesting store visits and answering locally-oriented questions. Please feel free to share these contacts with your field organization, and check back here periodically for updates to the list. Thanks for your partnership in making My Macy's a success.
